

**ARMANI**  
FRUITS

# About us

- Our company started working in the field of dried fruits **since 2019**.
- At first, the company limited itself to trade just dried fruits as a distributor for manufacturing companies.
- Within these years our business has grown and we decided to establish a manufacturing line of dried fruits in order to produce based on customers order, standards and regulations. So our company is capable of producing dried fruits based on customer's requirements.
- Thanks to our knowledge and experience and our comprehensive oversight of entire supply chain we can meet all customers need like (producing based on European standards organic and without any additives, packaging ,transportation customs ,payment ...)
- Moreover, we have a wide range of products to order and we have a good relationship with other manufacturers in the field of dried fruits.

# Product classification

## 1 Dried fruit slice

this is the most common type of dried fruits sold in the world. fruits are sliced and put into machine in order to produce these popular dried fruits. we can slice based on customers order.

## 2 Powder

we offer fruits and vegetables powder to our customers. %100 natural . The powder is normally used as a raw material in various industries.

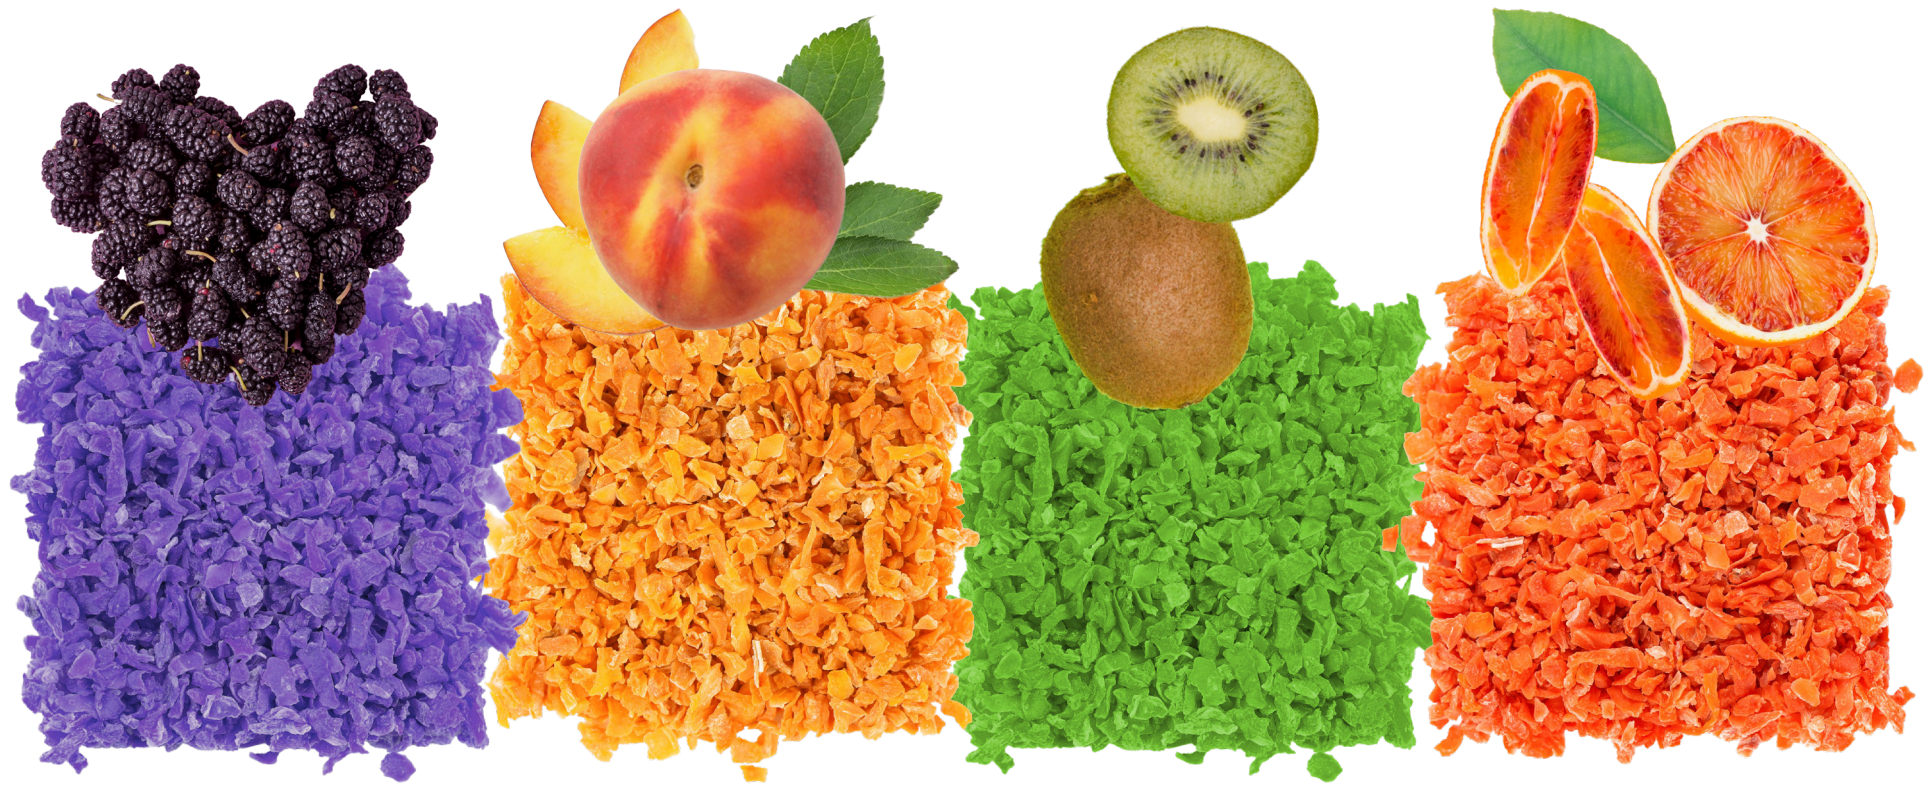

### 3 Dried vegetables

all kinds of dried vegetables are available in bulk and in a small packaging during the year. we make it possible for dear customers to have nutrient products in four seasons.

## 4 Granules

these products are commonly used as ingredients .  
granules retain the flavor sweetness and nutritional  
value of the original dried fruits.

## 5 Premium Sun-Dried & Marinated Olives

Organic and FDA-certified olives, sustainably grown and handpicked. Available in sun-dried or marinated varieties (garlic, herbs, chili). Rich flavor, no artificial additives.

Key for Traders:

- Certifications: FDA-compliant.
- Packaging: Bulk (jars, vacuum-sealed) or private-label options.
